# SCHEDULE K

## Classification of Foreign Ports by Geographic Trade Area and Country: 1995

### INTRODUCTION

This schedule lists the major ports of the world directly handling waterborne shipments in the foreign trade of the United States and the numeric codes identifying these ports in tabulations such as the TM/TA 380 and 780 (monthly/annual imports/exports by vessel). The ports are grouped according to the country arrangement in Schedule C, Classification of Country Designations for U.S. Foreign Trade Statistics, effective June 1, 1992. Note that the concordance between the Schedule C and the Schedule K is based upon the first three digits only; the last two digits identify the specific foreign port.

Within various countries and regional areas, groups of individual ports have been combined under single code numbers described as "all other ports." The ports listed in these basket categories represent smaller ports whose participation in the foreign trade to date has been of insufficient importance to warrant the compilation and presentation of separate data. For some countries, more than one of these basket categories have been listed to facilitate the segregation of traffic in terms of trade areas or trade routes.

In order to furnish further identification of ports in Canada and the Philippines, each of which contains a particularly large number of ports engaged in waterborne traffic with the United States, abbreviations have been inserted beside the port names to show the Canadian province or territory and, in the case of the Philippines, to show the island in which the designated ports are located. Small islands located off the shore of major islands in the Philippine Archipelago have been generally identified by the abbreviation for the larger islands. The abbreviations used are as follows:

CANADA			
BC	British Columbia	ONT	Ontario
CBI	Cape Breton Island	PEI	Prince Edward Island
LAB	Labrador	QUE	Quebec
MAN	Manitoba	YT	Yukon Territory
NB	New Brunswick	X	High or Deep Sea (for fishing vessels)
NFLD	Newfoundland		
NS	Nova Scotia		
PHILIPPINES			
BAS	Basilan	MIN	Mindanao
CEB	Cebu	NNC	Nonoc
JOL	Jolo	POL	Polillo
LEY	Leyte	POR	Poro
LUZ	Luzon	ROM	Romblon
MAS	Masbate		

### HOW TO USE THIS SCHEDULE

This schedule consists of three parts: Part 1, Numeric Code Index, Part 2, Alphabetic Index, and Part 3, Country and Territory Index. Your goal is to select the port code which identifies the foreign port where the vessel cargo is directly unladen (export shipments from the United States) or the foreign port where the cargo was laden on the importing carrier (import shipments into the United States).

To ascertain whether the name pertains to a bonafide waterborne port or possibly could be the place for the ultimate destination for the cargo, refer to a world atlas. Obviously, if the name identifies an inland or land-locked city, then you need to verify the true port of vessel cargo lading or unloading.

For ease of reference, use Part 2, the alphabetical index at the back of this schedule, to locate the foreign port name. Note that for some port codes, not only may several spelling variants be listed, but also, subports or

geographically adjacent ports may be identified by the same foreign port code as well. Also, since there are numerous ports with the same name, ensure that you have selected the correct port code by verifying the country name.

If you cannot locate the foreign port name in Part 2, then use Part 3, Country and Territory index, to assist you in finding the correct page in Part 1, Numeric Code Index, containing the country name. In most cases, if

the foreign port name is not listed, then determine if the port in question is geographically close to a port already listed. If so, assign the same code.

If you have any questions concerning the validity of a foreign port name and its proper classification, please contact Foreign Trade Division, Transportation Branch, at 301-457-2317 or by facsimile on 301-457-1237 for assistance.

## 1992 Economic Census

**CD-ROM is the least expensive way to acquire all data released in the 1992 Economic Census.**

Each disc can store over 600 megabytes of data.

dBaseIII-format files can be used with popular software packages.

Public-domain PC software on each disc helps you—

- Display data easily
- Extract data to a file
- Convert to other file formats for YOUR favorite software
- **To get started, just type "GO"!**

If you already do all of your work on a personal computer, now you can get census data in a format that is ready to use in your software.

- Calculate percentages
- Compute market share
- Map sales territories
- Rank potential markets

### You can get the data in this report on CD-ROM!

This report is part of the 1992 Economic Census. The census provides a detailed portrait of the Nation's economy every 5 years, from the national to the local level. There are eight major components:

- Retail Trade
- Wholesale Trade
- Service Industries
- Financial, Insurance, and Real Estate Industries
- Transportation, Communications, and Utilities
- Manufactures
- Mineral Industries
- Construction Industries

There also are several related programs, including statistics on minority- and women-owned businesses.

Economic census CD-ROM's contain the same data as more than 500 printed reports—plus data available nowhere else:

- ZIP Code statistics
- Merchandise lines sales for States and metro areas
- Location of manufacturing plants

CD-ROM Volume 1, 1992 Economic Census  
Report Series

**\$500**

- Issued in 10 quarterly editions starting mid-1994
- Each disc cumulative
- Includes data from all reports

CD-ROM Volume 2, 1992 Economic Census  
ZIP Code Statistics

**\$200**

- Issued in two cumulative volumes in late 1995
- Statistics by ZIP Code for retail, services, manufactures

Economic census CD-ROM's are sold by subscription only.  
The cumulative Volume 1 series costs \$500. Volume 2 costs \$200.

**You pay less than \$60 each  
by subscribing to all 12 economic census CD-ROM's.**

To order CD-ROM's,  
call Census Bureau Customer Services  
on 301-763-4100 or FAX 301-763-5198.
